

VINTAGE CHART

JUNE 2021

The Vintage Chart is a subjective view from the winemaking team based on their experience and knowledge of the wines and particular vintages as well as their own individual palate preferences.

Please note it is a guide only and your own preferences for how a wine is currently drinking, and therefore its remaining cellaring potential in your opinion, may not necessarily match the views of our winemaking team.

If you're in any doubt about how long to keep cellaring your wine, then our view would be you're better to open and enjoy it a little early, than to risk waiting too long and be disappointed if you then consider it to be past its best.

TAHBILK VINTAGE CHART

WINE STATUS

- Young
- Improving
- Ready
- Declining
- Past
- Not Made

Cellaring potential remaining is expressed in years

WINES	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
